

Benito™

Thank You for Choosing Benito Fusion Bullet!

Dear Customer,
Thank you for purchasing the **Benito Fusion Bullet**. We truly appreciate your trust in our product and brand. We hope it brings speed, ease, and convenience to your everyday kitchen needs! If you have any questions, need help with troubleshooting, want to register a warranty claim, or simply wish to share your feedback — we're just a call or message away.

Connect with us at: +91 72082 80599
We would **love to hear from you!**

Warm regards,
Team Benito Appliances

Important Tips Before You Start Using the Device

- **Beetroot & Carrots:** Make sure to finely chop beetroot and carrots before grinding, and add enough water to help with smooth blending.
- **Peanuts & Dry Fruits:** You can grind peanuts and dry fruits into a coarse powder, but this device is not suitable for making paste or nut butter.
- **Avoid Sticky or Hard Items:** Please do not use this appliance to mince meat or chicken, and avoid grinding jaggery or any sticky substances, as they can damage the blades or motor.
- **Usage Time:** Do not run the machine for more than 1 minute at a time. After each use, give it a 1-minute break to cool down before using it again.

MIXING / BLENDING / GRINDING
INSTRUCTION MANUAL CUM WARRANTY CARD

1. Fill ingredients into the long jar

2. Twist on the Blending Blade.

3. Place the Cup onto the Power Base.
Press down and twist to lock the motor on.

4. You can see the blending process happening.
Keep an eye on the consistency. Your Nutri-blend
is ready when it looks smooth and creamy !

Jars & Their Uses

- **Small Jar:** Perfect for making chutneys, and grinding dry spices, grains, and dry fruits.
- **Tall Jar:** Ideal for preparing juices, smoothies, and gravies.
- **Sipper Jar / Portable Jar:** Blend your drink and carry it on the go! This jar is perfect for **protein shakes, juices, and smoothies**, and doubles up as a convenient **sipper bottle**.

CONTENTS:

Motor Unit

Equipped with a powerful **500-Watt copper motor**, this appliance features **push switch technology**, making it both **easy and safe to operate**.

- 1 High Torque Motor Unit,**
- 1 Unit Tall Cup, 1 Unit Short Cup**
- 1 Jar Base With Cross S.S. Blade**
- 1 Basic Lids, 1 Sprinkle Lid, 1 Sipper Lid**

How to Use

1. Carefully read the **“How to Use”** and **“Safety Instructions”** sections before operation.
2. Load your ingredients into the appropriate jar.
3. Choose the right blade based on the food type. Twist and lock it onto the jar securely.
4. Push Mode: Turn the rotary switch ON, place the jar on the motor base, then press down the jar to activate. Release to stop.
5. If ingredients get stuck, press and release the jar multiple times. Shake gently if needed.
6. Once you get the desired consistency, remove the jar, unscrew the blade, and your food is ready to serve.

Note: A Mild Smell Is Normal at First

Don't worry if you notice a slight burning smell during the first few uses of the mixer. This is completely normal and happens because of the protective varnish inside the motor evaporating. It will go away after a few uses.

अगर मिक्सर के पहले कुछ इस्तेमाल में जलने जैसी हल्की गंध आए, तो घबराएं नहीं। यह सामान्य है और मोटर के अंदर लगी सेफ्टी वार्निश के उड़ने की वजह से होता है। कुछ बार इस्तेमाल के बाद यह गंध अपने आप बंद हो जाएगी।
