WARRANTY CARD

The Benito Electric Kettle comes with a 6 months Warranty from the date of purchase against defects arising from faulty workmanship or manufacturing defects in the product. The warranty automatically stands cancelled if the appliance is opened, repaired, or tampered with by any unauthorized person.

This warranty is invalid if the product is misused, improperly handled, used for commercial purposes, or not operated in accordance with the instruction manual provided by the company. Damages occurring during transit, improper voltage supply, or negligence are also not covered under warranty.

The warranty card must be completed in all respects. All warranty claims should be accompanied by the original warranty card and purchase proof and must be made through authorized dealers or distributors. The heating element and internal electrical components will be serviced free of charge during the warranty period only in case of manufacturing defects. Any damage caused due to mishandling, scaling, dry heating, or tampering will be chargeable.

Not Covered Under Warranty

All plastic, steel, rubber, and external components such as the handle, lid, power cord, switch, body, base plate, indicator light, and other accessories are subject to normal wear and tear and are therefore not covered under warranty.

DO'S

READ INSTRUCTIONS CAREFULLY.

Check the Power Cord: Ensure the power cord and plug are in good condition before using the electric kettle.

Fill Within Limits: Always fill water between the minimum and maximum level markings to ensure safe and efficient operation.

Close the Lid Properly: Ensure the lid is securely closed before switching on the kettle to prevent hot water splashes.

Handle with Care: Always hold the kettle using the insulated handle. The stainless steel body may become hot during operation.

Place on Stable Surface: Keep the kettle on a flat, dry, and stable surface away from direct sunlight, stovetops, or other heat sources.

Use Clean Water: Use clean drinking water for boiling to maintain hygiene and improve appliance life.

Unplug After Use: Always disconnect the appliance from the power supply before cleaning or when not in use.

Authorized Service: If the electric kettle malfunctions, do not attempt to repair it yourself. Take it to an authorized service center along with your warranty card.

DON'T'S
