User Manual

Nutri Bullet Mixer Grinder Jars

Welcome to the World of Versatile Mixing

Congratulations on your purchase of PRIDE Bullet Mixer Juicer Jars. These universal jars are designed to elevate your mixing experience, offering compatibility with most mixer grinders in the market. Let's get you started on your culinary journey

Getting Started: Installation Guide

- **Identify Your Mixer Grinder:** Ensure your mixer grinder has a 2-lock and 4-teeth coupler system.
- **Prepare the Jar:** Choose either the 300ml or 500ml jar based on your mixing needs.
- **Align the Jar:** Position the jar so that its locks align with the mixer grinder's coupler.
- **Secure the Jar:** Gently lower the jar onto the coupler and twist clockwise until you hear a click. The jar is now securely attached.
- **Double-Check:** Give the jar a gentle tug to ensure it's properly locked in place

Using Your Bullet Jars

- **Choose Your Ingredients:** Fill the jar with your desired ingredients. Don't overfill – leave about 1/3 of the jar empty for optimal mixing.
- **Secure the Lid:** Place the lid on top and twist clockwise until it's tight.
- **Start Mixing:** Turn on your mixer grinder and watch the magic happen
- **Pulse for Control:** For more control, use the pulse function on your mixer grinder.
- **Remove and Serve:** Once done, twist the jar counter-clockwise to remove it from the base. Pour and enjoy your creation

Safety First

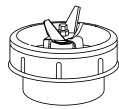

- **Blade Caution:** The blades are sharp. Always handle with care, especially during cleaning.
- **Keep It Cool:** Allow hot liquids to cool before blending to prevent

pressure build-up.

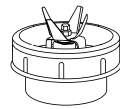

- **Secure Before Blending:** Never operate the mixer without the jar properly locked in place.
- **Hands Off:** Keep fingers and utensils away from the blades while the mixer is running.

Cleaning Your Bullet Jars

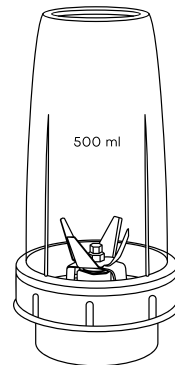

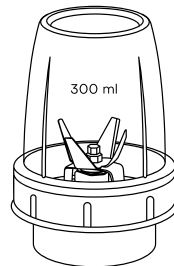

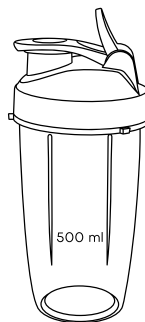

1. **Quick Rinse:** For an easy clean, blend warm water with a drop of dish soap in the jar immediately after use.
2. **Thorough Clean:**
 - Carefully remove the blade assembly from the jar.
 - Wash all parts with warm, soapy water.
 - Rinse thoroughly and dry completely before reassembling.
3. **Blade Care:** Clean blades with a brush to avoid direct contact with sharp edges.
4. **No Dishwasher:** These jars are not dishwasher safe. Always hand wash for longevity.
